New Free CME – Opioid Pharmacology
Russell K. Portenoy, MD

In this three part series, Drs. Ricardo Cruciani, Gavril Pasternak, and Russell Portenoy discuss the pharmacology of opioids and the importance of individualizing opioid therapy for every pain patient.

Begin

New CE Virtual Grand Rounds
Controlled Substance Prescribing

Have questions about the best use of assessment and pain management tools in chronic pain patients who are prescribed opioids? In this first session of a multi-part series, Dr. Jeffrey Gudin outlines proper patient selection in opioid therapy.

Begin

Interview with the Experts
Jeffrey A. Gudin, MD & Michael J. Brennan, MD

Dr. Gudin and Dr. Brennan discuss pharmacologic analgesics for chronic pain, responsible prescribing practices, and the impact REMS may have on clinician education concerning safe opioid prescribing.
