The State of Opioid Prescribing in Florida
Jeffrey A. Gudin, MD & Rafael V. Miguel, MD

Drs. Miguel and Gudin discuss current challenges of opioid over-prescribing, the alarming number of deaths due to overdose in Florida and the steps the state will take in the coming weeks to address these significant problems.

ESP National Meeting Highlights
PAINWeek • Las Vegas, Nevada

Dr. Jeff Gudin and various faculty provide brief summaries and research updates covering selected presentations from PAINWeek, held September 7-10, 2011.

New Free CME – Opioid Pharmacology
Gavril W. Pasternak, MD, PhD

In this three part series, Drs. Ricardo Cruciani, Gavril Pasternak, and Russell Portenoy discuss the pharmacology of opioids and the importance of individualizing opioid therapy for every pain patient.

New CE Virtual Grand Rounds
The Key to Establishing a Risk-Averse Practice

In this second session of a multi-part series, Dr. Steven Passik discusses refining the art of risk management and establishing a risk-averse practice.
